

Infrastructure Services - Mainline

Rail Recruitment Specialists

Wynnwith Rail are focused on providing specialist and innovative recruitment solutions to our clients. We have forged strategic supplier partnerships and provide clients with the confidence they can rely on Wynnwith to deliver support and resource that will ensure they deliver key business projects on time and within budget.

- ✓ **Deliver a competitive value added service**
- ✓ **To achieve 100% supply of labour**
- ✓ **Deliver resources in a safe and timely manner**
- ✓ **To understand and respond to the individual site / Depot needs**
- ✓ **To consistently enhance overall supply performance**

Key Performance Indicators (KPIs) and Service Level Agreements (SLAs) are agreed to ensure that all cost and performance targets are met.

Service Capability

Wynnwith Rail have been working on Rail infrastructure for over 9 years and have extensive experience of providing individual and high volume labour solutions to both long and short term projects. Each Account Manager and Delivery Consultant has extensive experience within their particular environment and works closely with their respective clients to ensure that their labour delivery targets are met.

Our Mainline Delivery Team provides skilled personnel throughout the Rail industry into Civils and Construction, Mechanical & Electrical, Protection, Signalling and Telecoms, Track and Permanent Way. Our capability extends across a broad range of skills including General Labour, Protection, Trades and Supervisory.

Delivering Safety

Safety as a key deliverable is supported by the Wynnwith in-house Compliance Team who administer our Competency Management systems in strict accordance with the obligations of our Link-UP accreditations

We achieve our high delivery by a formal planning and recruitment process, on-site presence weekly, one-to-one relationships with Managers. In addition Wynnwith ensure that Managers and workers have an on-call support line which is available 24 hours, 7 days per week.
