

Wynnwith Aerospace

Experience and Expertise

Wynnwith is one of the UK's leading suppliers of professional, engineering and technical recruitment services to a number of markets, but particularly Aerospace and Defence. Our distinguished client base includes AgustaWestland, Airbus, GKN, MoD and Rolls Royce who we provide with a range of recruitment solutions specifically tailored to their individual requirements.

Our clients can rely on a management team who are experienced in both the relevant engineering and technical disciplines, and in the development and delivery of effective recruitment services, to deliver the staff that they require to meet their business objectives.

Client-Specific Solutions

Wynnwith is a 'full service' provider able and experienced in providing a range of services to meet our clients' needs. We believe in a partnership approach that ensures that we have a detailed understanding of clients' objectives and requirements before recommending and delivering the most effective recruitment solution which also remains flexible to our clients' changing business needs.

Wynnwith is able to offer Recruitment Process Outsourcing (RPO) solutions involving the delivery of a combination of recruitment, resourcing and demand planning services to meet a client's short and long term resource demands. By engaging with Wynnwith on a RPO basis a client is best able to focus on their core competencies whilst receiving an enhanced professional service, obtaining best value and minimising risk.

Reliability and Quality

With more than 35 years experience and a track record of maintaining long-term client relationships, Wynnwith can justifiably highlight the reliability and quality of its recruitment services. We continue to invest in the development of our capabilities to best support our clients, our staff and the services that we offer to our candidates. We aim to use quality processes to provide world-class talent and to give our clients access to the skills needed to meet their objectives.
